REPORT OF EXAMINATION
TO APPROPRIATE PUBLIC WATERS OF THE STATE OF WASHINGTON

SURFACE WATER GROUND WATER

APPLICATION NO. 82-21483	PRIORITY DATE OF APPLICATION September 5, 1979
-----------------------------	---

NAME
VARLEN J. AND ROBERT E. SAHLE AND RICHARD W. OLSON, SR

ADDRESS (STREET) (CITY) (STATE) (ZIP CODE)
PO Box 755 Port Townsend Washington 98369

PUBLIC WATERS TO BE APPROPRIATED

SOURCE
Unnamed stream

TRIBUTARY OF (IF SURFACE WATERS)

MAXIMUM CUBIC FEET PER SECOND	MAXIMUM GALLONS PER MINUTE	MAXIMUM ACRE-FEET PER YEAR
0.10 (when available)		1
QUANTITY, TYPE OF USE, PERIOD OF USE		
1 acre-foot per year	group domestic supply	continuously
non-consumptive	fish propagation and wildlife refuge	continuously

LOCATION OF DIVERSION/WITHDRAWAL

APPROXIMATE LOCATION OF DIVERSION/WITHDRAWAL
600 feet west and 700 feet north from the southeast corner of Sec. 1

LOCATED WITHIN (SMALLEST LEGAL SUBDIVISION)	SECTION	TOWNSHIP N.	RANGE (E. OR W.) W. M.	W.R.I.A.	COUNTY
SE-SE1	1	28	1 W	27	Jefferson

RECORDED PLATTED PROPERTY

LIT	BLOCK	OF (GIVE NAME OF PLAT OR ADDITION)

LEGAL DESCRIPTION OF PROPERTY WATER TO BE USED ON

The E-SE1, Sec. 1, T. 28 N., R. 1 W.W.M.; AND that portion of the 8 1/2 Government Lot 5, Sec. 6, T. 28 N., R. 1 E.W.M., lying westerly of Chinacum-Beaver Valley Co. Road.

DESCRIPTION OF PROPOSED WORKS

approximately 6-8' earth fill
pipeline to cabins

DEVELOPMENT SCHEDULE

BEGINNING DATE	COMPLETION DATE	DATE COMPLETE APPLICATION OF WATER TO BE MADE
Started	March 1, 1976	March 1, 1977

PROVISIONS AND RECOMMENDATIONS

This application is for group domestic, fish propagation and wildlife refuge.

The quantity applied for was 0.25 cubic foot per second, however, estimated low flow of the stream at the time of field examination was only 0.02 cubic foot per second.

It is anticipated that the maximum quantity available for appropriation would be 0.10 cubic foot per second.

Applicants have constructed a 6-8' high earth fill dam which would impound approximately 2 acre-foot of water.

Plans call for construction of 3 recreational type structures. The annual quantity required for domestic purposes will be approximately 1 acre-foot.

Fish propagation and wildlife refuge are considered non-consumptive uses and no annual quantity is allocated.

Therefore this application may be approved for 0.10 cubic foot per second (when available), 1.0 acre-foot per year for domestic supply and non-consumptive for fish propagation and wild life refuge.

Use of the waters to be appropriated under this application will be for a public water supply. State Board of Health rules require every owner of a public water supply to obtain written approval from the Assistant Secretary, Health Services Division prior to any new construction or alterations of a public water supply.

It is noted that the construction of the facilities for the appropriation of water under this application will require removal of material from or adjacent to a stream channel or watercourse. Applicant is, therefore, advised that a Hydraulic Approval should be obtained from the Departments of Fisheries and Game prior to commencing work (Fisheries Code 75.20.100).

In accordance with Section 90.03.290 RCW I find that there is water available for appropriation from the source in question and that the diversion as recommended above will not impair existing rights or be detrimental to the public welfare. Therefore, permit should issue, subject to existing rights and indicated provisions.

Signed at Olympia, Washington,
this 13 day of March, 1975.

RICHARD S. CARTER, Resources Management
