DESCRIPTION OF PROPOSED WORKS

wall - 6" x 56'

DEVELOPMENT SCHEDULE

BEGINNING DATE	COMPLETION DATE	DATE COMPLETE APPLICATION OF WATER TO BE MADE
Started	Completed	August 1, 1976

PROVISIONS AND RECOMMENDATIONS

This application is for the purpose of obtaining a water supply for a group domestic water system consisting of 2 services (beach cottages).

For a development of this magnitude and nature in this locale, 450 gallons per day per service will meet the water demand of each service. For 2 services, this amounts to 1.0 acre-foot per year.

Use of the waters to be appropriated under this application will be for a public water supply. State Board of Health rules require every owner of a public water supply to obtain written approval from the Water Supply and Waste Section, Health Services Division, PO Box 1788, Olympia, WA 98504 prior to any new construction or alterations of a public water supply.

"The installation of an access port as described in attached Ground Water Bulletin No. 1 shall be required prior to issuance of final certificate of water right. The applicant may, for his own convenience, wish to install an airline and gage in addition to the access port."

Accordingly, this application may be approved for 15 gallons per minute on a continuous basis not to exceed 1.0 acre-foot annually.

Signed at Olympia, Washington,
this 2 day of SEPT., 1975.
