**DESCRIPTION OF PROPOSED WORKS**

A 6' x 302' well with a 1/2 horsepower pump, a 1,500 gallon reservoir, and a 1-inch distribution pipe.

**DEVELOPMENT SCHEDULE**

<small>BEGIN PROJECT BY THIS DATE:</small> Started	<small>COMPLETE PROJECT BY THIS DATE:</small> Completed	<small>WATER PUT TO FULL USE BY THIS DATE:</small> In use
---	--	--

**PROVISIONS**

Installation and maintenance of an access port as described in WAC 173-160-355 is required. An air line and gauge may be installed in addition to the access port.

At such time that the Department of Ecology determines the regulation and management of the subject waters is necessary and in the public interest, an approved measuring device shall be installed and maintained in accordance with RCW 90.03.360 and WAC 508-64-020 through -040.

This permit may be subject to implementation of the minimum requirements established in the Interim Guidelines for Public Water Systems Regarding Water Use Reporting, Demand Forecasting Methodology and Conservation Programs, July 1990.

Under RCW 90.03.005 and 90.54.020(6), conservation and improved water use efficiency must be emphasized in the management of the State's water resources, and must be considered as a potential new source of water. Accordingly, as part of the terms of this permit, the applicant may need to prepare and implement a water conservation plan approved by Department of Health. The standards for such a plan may be obtained from either the Department of Health or the Department of Ecology.

The Water Resources Act of 1971 specifies certain criteria regarding utilization and management of the waters of the state in the best public interest. Use of water may be subject to regulation at certain times, based on the necessity to maintain water quantities sufficient for preservation of the natural environment.

*This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.*

*Given under my hand and the seal of this office at Olympia, Washington,*

this 23rd day of October, 19 92.

Fred Olson, Acting Director  
Department of Ecology
