Other water rights appurtenant to this land None  
Progress of project Not started  
Protests None  
Quantity recommended (total) 0.01 c.f.s., Irrig. \_\_\_\_\_ Dom. 0.01 c.f.s.,  
1 acre-foot per year 1 acre-foot per year  
Power \_\_\_\_\_ Municipal \_\_\_\_\_ Other uses \_\_\_\_\_  
Department of Fisheries and Game report See below

Special remarks and provisions:  
In accordance with the recommendations of the Departments of Fisheries and Game, the permit shall be issued subject to the following provision: Diversion intake shall be tightly screened at all times with wire mesh having openings with dimensions not greater than .125 (1/8) inch.  
The water requirement for domestic supply is based on a water duty of 0.01 cubic foot per second and a maximum annual need of 1 acre-foot for one home.  
In accordance with Section 90.03.290 RCW, I find that there is water available for appropriation from the source in question and that the diversion proposed in the application will not impair existing rights or be detrimental to the public welfare. Therefore, permit should issue as recommended above, subject to existing rights and indicated provisions.

Signed at Olympia, Washington  
this 5 day of October, 1967

Dean Wood
