Permit to appropriate Public Surface Waters of the State of Washington

Book No. of Permits, on Page S2-20451P Under Application No. S2-20451

WILLIAM A. BRODERSON

220451

Quilicene, Washington

of
is, pursuant to the Report of Examination which has been accepted by the applicant, hereby granted a permit to appropriate the following described public surface waters of the State of Washington, subject to existing rights and to the limitations and provisions set out herein.

Priority date of this permit is August 16, 1972

Source of the proposed appropriation is an unnamed stream (Walah Creek)

tributary of Cinnacum Creek

The quantity of water appropriated shall be limited to the amount which can be beneficially applied and not to exceed 0.01 cubic feet per second, 1 acre-feet per year, or its equivalent in case of rotation, to be used for the following purposes: domestic supply and fire protection as more definitely set out below.

The approximate point(s) of diversion is/are 1300 feet south and 500 feet west from the northeast corner of Sec. 16

being within SE 1/4

of Sec. 16, Twp. 28 N., Rge. 1 W. W.M., Jefferson County.

The use, or uses, to which water is to be applied:

Domestic/municipal supply 0.01 cubic feet per second, 1 acre-feet per year, during entire year.

Irrigation: cubic feet per second, acre-feet per year from acres.

Other use(s) fire protection; cubic feet per second, acre-feet per year, as needed each year.

LEGAL DESCRIPTION OF LANDS UPON WHICH THIS WATER IS TO BE USED:

The SE 1/4, Sec. 9, T. 28 N., R. 1 W.M.

FOR POWER: cubic feet per second continuously each year. Total power to be developed theoretical horse power. Total fall to be utilized feet.

Works to be located in Sec., Twp. N., Rge. W.M.

Water to be returned to

Point of return Sec., Twp. N., Rge. W.M.

Use to which power is to be applied

ADDITIONAL LIMITATIONS AND PROVISIONS: Permittee shall construct and maintain at his own expense a weir, or other suitable device, for measurement of water related to this appropriation, as required by the Department of Ecology.

Diversion intake shall be tightly screened at all times with wire mesh having openings with dimensions not greater than .125 (1/8) inch. Water approach velocity to the screen shall be less than 1 foot per second and approaching 0.5 foot per second, as measured one foot in front of the screen.

Nothing in this permit shall be construed as excusing the permittee from compliance with any applicable federal, state, or local statutes, ordinances, or regulations including those administered by local agencies under the Shoreline Management Act of 1971.

DESCRIPTION OF PROPOSED WORKS screened plastic pipeline

DEVELOPMENT SCHEDULE:

Construction work shall begin on or before **Started**

and shall thereafter be prosecuted with reasonable diligence and completed on or before

Completed

and complete application of water to proposed uses shall be made on or before

June 1, 1974

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Olympia, Washington, this 24th day of May, 1973.

JOHN A. BIGGS, Director
Department of Ecology
