Re: Temporary Layoff Notification – 238 H-2A Workers

Dear Employment Security Department:

DNS Farm Services, LLC is providing this letter to notify the Washington State Employment Security Department of a temporary layoff involving approximately **238 H-2A agricultural workers**.

The anticipated layoff date is **November 7, 2026**, due to the completion of the current agricultural work and contract.

We understand that the circumstances surrounding temporary agricultural employment and H-2A workers may affect the applicable reporting requirements. We were previously advised by ESD, that H-2A workers were not required to be reported for this purpose. Based on that information, we did not initially submit a notification.

However, we want to ensure that DNS Farm Services, LLC is doing what is appropriate and complying with applicable requirements. Therefore, we are submitting this notification now, even though it is being provided later than the normal notice period.

This layoff is intended to be **temporary**, and the company currently anticipates that the affected workers will return to employment within six months, subject to the availability of agricultural work and execution of the anticipated contract.

Please accept this letter as our notification of the anticipated temporary layoff. Attached is a report that includes names, job titles and addresses of the affected employees. If additional information, documentation, or a different form of notification is required, please let us know and we will provide it promptly.

Thank you for your assistance and consideration.

Sincerely,

Leticia Mendoza
